SKILLS

- Languages:** C++,Java, Python
- Frameworks:** HTML and CSS
- Tools/Platforms:** MySQL, Excel, Power BI, Seaborn, Matplot, Sci-kit Learn, Pandas,Postman
- Soft Skills:** Problem-Solving, Team Collaboration, Time Management, Adaptability

PROJECTS

- EasyInvoice Pro – Smart Billing & Management System | Link**

Jun 2025 – Jul 2025

 - Built a complete end-to-end billing workflow to manage products, quantities, discounts, taxes, and final payable totals with high accuracy and consistency
 - Designed a clean, responsive Java Swing interface that keeps billing fast, well-organized, visually structured, and easy to navigate for everyday business use
 - Added a professional invoice output system enabling enterprise-grade automated processing and reliable print-ready bills for real-world business usage

Tech Used: Java, Swing, AWT, Java OOP, PDF/Print Utilities
- FraudLens 360 – Transaction Fraud Intelligence Dashboard | Link**

Apr 2025 – May 2025

 - Reviewed transactions to detect unusual activity, filter risky behaviour, and flag potential fraud signals using advanced analytics
 - Explored transaction values, regions, months, categories, and devices to spot high-risk zones and recurring fraud patterns with data intelligence
 - Summarized insights into a clear decision-ready dashboard highlighting trends, hotspots, and anomaly behaviour through visual reporting

Tech Used: Excel (Pivot Tables, Charts, Data Cleaning), Data Analysis & Visualization
- PYDebug AI – Automated Code Debugging | Link**

Feb 2025 – Apr 2025

 - Created an AI-powered tool to analyze Python code, automatically trace execution flow, and quickly detect logic flaws, runtime failures, and critical error issues in complex programs
 - Examined logic flow, execution faults, and exception handling to precisely identify failure points and performance bottlenecks
 - Recommended clearer, optimized code structures and best practices to resolve issues efficiently and improve overall reliability

Tech Used: Python, Gemini API, Debugging Workflow Design

TRAINING

- Java Maestro: GUI Development Training (Lovely Professional University) |Link**

Jun 2025 – Jul 2025

 - Mastered core Java concepts including OOP principles, language keywords, memory handling, and essential program structures
 - Practiced building responsive user interfaces using Swing and AWT layouts, components, and event-driven programming models
 - Learned exception handling, date-time APIs, file systems, and database connectivity techniques for reliable CRUD operations)

Tech Used: Java, Swing, AWT, JDBC, OOP

CERTIFICATES

- Privacy and Security in Online Social Media (NPTEL) | Link

Jul 2025 – Oct 2025
- Java Maestro: Hands-On Training on Developing GUI Applications(Lovely Professional University) | Link

Jun 2025 – Jul 2025
- Java Programming on Iamneo Platform(Lovely Professional University) | Link

Jan 2025 – May 2025
- Binary Blitz Hackathon(Coding Ninja LPU) | Link

Mar 2024

EXTRA CURRICULAR ACITIVITY

- Community Development Program – Asha Niketan, Asansol (West Bengal) | Link**

Jul 2024

 - Volunteered at Asha Niketan to support children and adults with disabilities in daily learning, rehabilitation, and personal care activities
 - Helped build an inclusive environment that encouraged confidence, social interaction, emotional stability, and long-term skill development
 - Contributed to awareness initiatives promoting dignity, respect, accessibility, and equal participation for people with disabilities through community programs, outreach campaigns, and inclusive social engagement activities

EDUCATION

- Lovely Professional University**

Punjab, India

Bachelor of Technology - Computer Science and Engineering; CGPA: 7.2

Since Aug 2023
- Narayana School**

Asansol, West Bengal

Intermediate; **Percentage: 73%**

Mar 2022 – Mar 2023
- Narayana School**

Asansol, West Bengal

Matriculation; Percentage: 92%

Mar 2019 - Mar 2020
